30.1 AMEL	2.8 AMEL PIC	37.8 Night	5.4 Actual Instrument	99.4 Sim Instrument	85.0 TAA

FLIGHT & OPERATING EXPERIENCE

Flight Experience

November 2024–Present

- Plan and conduct day/night VFR and IFR cross-country flights using conservative weather analysis, performance planning, fuel management, airport evaluation, and go/no-go decision-making.
- Logged 311.7 hours in the Cessna 172 across 167 flights, including 221.6 PIC, plus complex, high-performance, TAA, and light multiengine experience.
- Trained and operated in Class C and Class D airspace and within the Washington, D.C. SFRA, applying controlled-airspace communications, traffic sequencing, flight planning, transponder, and procedural compliance requirements.
- FAA WINGS Pilot Proficiency Program achievements: Master Phase 1, Advanced Phase 2, and Basic Phase 5.
- Maintain accurate flight records and apply disciplined preflight planning, checklist compliance, and continuous situational awareness.

PROFESSIONAL LEADERSHIP

General Manager | Car Plus | Merced, California

September 2017–Present

- Direct daily operations for a 10-person automotive business generating more than \$750,000 in annual revenue, with accountability for personnel, scheduling, financial performance, customer service, vendor coordination, regulatory compliance, and operating standards.
- Manage time-sensitive workflows, employee assignments, documentation, customer issues, and changing operational priorities while maintaining clear communication, sound judgment, and accountability for safe, consistent daily execution.
